SECOND DAY OF THE INSTITUTE.

INTERESTING TOPICS DISCUSSED.

Dr. Whitsett on the Opening Exercises, Reading and Psychology—Prof. Wyche Shows How Literature May be Given a Proper Place in School Work—A Question Box—The Teachers in Attendance. Visitors.

The County Institute met promptly at 8:30 a. m. in the court house today. Miss L. Blanche Rankin gave an appropriate vocal selection, after which Rev. V. L. Marsh, of the Methodist church, conducted the devotional exercises.

Dr. Whitsett gave some helpful suggestions as to the opening exercises of schools. The day should always begin with something of inspiration and helpfulness, he said. Have a few moments each morning for some special work of this kind. Avoid monotony; avoid moralizing. Some great poetical gem, or noble thought from a work of prose may give some student a positive uplift for life. Short biographical sketches, and incidents from the lives of "the heroes of all ages" may make enduring impressions. Some golden deed cited from history may so arouse and lead a slumbering genius as to make his life sublime. Various lines of worthy thoughts were suggested as offering suitable material, among them patriotism, courage, morality, kindness, nobility, charity, perseverance, etc. Innumerable incidents may be chosen to illustrate all these, and other lines. Ever keep in view:

"Be noble, and the nobleness that lies in other men sleeping, but never dead, will rise in majesty to meet thine own."

The moral side of the teacher was appropriately discussed in a twenty minutes address by Rev. V. L. Marsh, who emphasized the necessity of moral culture co-ordinate with mental training.

Reading was the next topic treated by Dr. Whitsett, who claimed reading as the most important study, being the key to all knowledge. True and correct reading is "gaining or giving knowledge and pleasure from printed pages." The methods in common use were discussed fully—the alphabet, the phonic, the word, the sentence, the combined, etc. The various elements entering into good reading were cited, the physical element, embracing attitude, gesture, expression, etc; the vocal element, including pitch, compass, quality, quantity, stress, etc; the intellectual element, which has to do with understanding the selection, and the emotional element, covering all the range of human feeling. The student must have thought before he can read or think. If the idea is incorrect the expression is faulty. Outrageous reading is often heard from persons otherwise well educated. Poor teaching of reading is all too common. A number of selections were given to illustrate certain portions of this lecture, among them Markham's famous "The Man With the Hoe." Good instruction will lead to such an appreciation of great thought that many will say with Gibbon "I would not exchange my love of reading for all the wealth of the Indies."

Finishing, he showed how, from the classic from Longfellow, we may make a permanent impression upon the child's mental growth along many serviceable lines.

Psychology as an essential to correct teaching was the next subject discussed. The teachers listened with great interest as Dr. Whitsett spoke of the dread felt by a young teacher of the terms metaphysics, mental philosophy, psychology, etc., but showed that, instead, all teachers should feel a deep interest in a true understanding of the wonderful child-mind. Begin this study with the child. Study intellect, sensibleness and will as daily manifested in a child. By observation and introspection you can soon attain unto much of the helpful knowledge. Study the various temperaments manifested in children. The faculties develop in fixed order: First, perception; second, memory; third, imagination; fourth, judgment; fifth, reason. Certain studies are united to certain mental stages. Correct classification is impossible without psychological knowledge. Teachers can easily, by study, become able to analyze mental operations. Each true mental operation involves:

First, attention; second, abstraction; third, analysis and synthesis; fourth, comparison; fifth, classification. Much interest was aroused in the oft-times "dry" topic among the members of the Institute.

Mr. H. Brower Smith, one of Guilford's teachers, brought to the institute the question of the organization of the Guilford County Teachers' Association. He made an excellent talk, showing the necessity and value of such an association. A committee composed of Mr. H. B. Smith, Miss L. Blanche Rankin and Mr. R. M. Gladson was appointed to enroll the teachers and present a plan of organization. They will report tomorrow.

Prof. R. T. Wyche continued to develop his work, showing how literature may be given a proper place in school work. He showed how antebellum slave life echoed through the Uncle Remus Tales.

Prof. Lee Blair, J. Y. Joyner, G. A. Grimsley, Dr. C. D. McIver and other leading educators were in attendance today. The three latter made helpful talks of ten minutes length before the institute, which were much appreciated.

Prof. G. E. Petty opened the Question Box and replied to the questions therein.

An afternoon session of the institute for the consideration of "Some Special Troubles in Public School Work" was announced, beginning at 3:30 today.

Numbers of teachers are still arriving and the deep interest of the teachers in their work is very noticeable.

The work of the institute is divided into periods of thirty minutes' duration. Music is frequently interspersed, so that the work of the entire session is kept helpful and inspiring without becoming tiresome. The number of interested visitors increases. It was announced that visitors were always welcome.

Prof. J. Y. Joyner and Supt. Geo. H. Crowell will be among those who deliver addresses tomorrow morning.

Dr. C. D. McIver will deliver an address at 11 a. m. Friday, to be followed by State Superintendent Mebane at 12 m. A large crowd is expected Friday to attend these addresses and those of other speakers to be announced later.

Supt. Wharton is kept busy finding homes for the teachers, answering questions as to the county public schools, etc.

The following teachers are in attendance: Misses Norvella Ector, Mabel Patterson, Bertie Patterson, Ollie Ward, Dora Matthews, Minnie Biggs, Mamie B. Wilson, Ida McCulloch, Nora Lawrence, Tannie Highfill, Berta Hodgins, Bessie Hodgins, Ida E. Millis, Lula V. Fentress, Lulu Marsh, E. Pie Clapp, Eugenia Clapp, Blanche Rankin, Cora Thornton, Annie Lowrie, Lizzie Donnell, Mamie Donnell, Elsie Meredith, Luella Thorne, Elva to Sharp, Ola Wilson, Sallie Ratcliff, Rosa Mooe, Callie Wharton, Mesdames Robert Purton, Will Benbow, Sophronia Hiatt, Della Craven; Messrs. H. B. Smith, Chas N. Smith, T. J. Roach, W. C. Rankin, Lacy L. Barbee, Wm. Brookbank, R. K. Craven, Lindley Osborne, J. Vance Dick, W. S. Jones, R. W. Jones, W. H. Rankin, T. W. Albertson, Chas E. Kinnole, E. E. Farlow, J. D. F. Cobb, Grover C. Brookbank, R. M. Gladson, R. B. Andrews, John A. Forbis, Victor S. Hamner.

To Those Concerned.

To the Editor of the Telegram: The sidewalks on Church street are very much in need of repairs, and if they are not fixed up right away, some one will be hurt, and there will be a suit brought against the city. Any one walking over the street is very apt to fall and break some bones. This is a very important matter and should be attended to at once. The street is in a very bad condition and the ones who have this part of the town to walk over, would be indebted to the authorities if they would take this matter up at once and have the street worked on. A CITIZEN.

Official Visit.

Mr. B. A. Waddell, grand secretary and Mr. R. W. Murray, deputy grand master, of the Grand Lodge of Odd Fellows, will pay an official visit to Repton Lodge No. 63, in High Point, tonight.

THE FIGHT OF LAST SUNDAY.

MORE DETAILS OF THE AFFAIR.

American and British Troops Marched up One Side of the River and Japanese and Russians up the Other Side Carrying Artillery on Transports—Chinese Were Deeply Entrenched and Fought Stubbornly for Seven Hours—Were Driven Back by an Onslaught in the Face of a Heavy Fire.

By Wire to the Telegram. Chefoo, Aug. 7.—In the first battle between the Chinese and the allies on the way to Peking the first battle has been fought and won at Pletsang, which was captured. The foreign troops are now in possession of the Chinese trenches and fighting fiercely.

A strong force of Americans participated, consisting of the Ninth and Fourteenth regiments, and Reilly's battery and marines.

The Chinese held a strong position in deep trenches and behind heavy breastworks and in loopholed houses. The allies attacked and advanced in the face of a hot fire. For seven hours the Chinese stubbornly resisted. Then the foreign troops rushed the position and the Chinese were swept from the trenches. The Americans fought gallantly.

REPORT FROM THE CAMP.

Camp of Allies, Aug. 7.—The advance guard left Tien-Tsin Friday. The advance guard consisted of about 16,000 and moved slowly because the Chinese had placed many mines and torpedoes in the Peiho river, and great care was necessary. The Japanese were in advance and soon struck a force of the enemy near Tien-Tsin and a skirmish followed. The Japanese lost twelve.

The Chinese retired upon Pelsang about nine miles from Tien-Tsin, where it had been reported that the troops of Generals Wa and Tung were massed. Scouts reported three large guns and many smaller cannon in place in the entrenchments at Pelsang. A spy sent in advance of the allies reported that the Chinese force consisted of about 40,000 well armed men, well entrenched. Nevertheless the allies pushed forward energetically and with confidence. The American and British troops marched up the west bank of the river and the Russians and Japanese along the east bank, while light draft transports with supplies and artillery moved slowly up the river between the columns.

A NEW MOVEMENT.

A Colored Minister Working for the Advancement of His Race.

Contributed. Rev. L. T. Christmas, general secretary and organizer of the Co-operative Missionary, Industrial and Educational Crusade Association of the United States, is addressing the colored people at their churches here on this new line of missionary work. This movement is endorsed by both press and people of different faiths and of both races, who have expressed great faith in it and much hopefulness for its benefits to the colored race.

Last night Rev. Christmas spoke to a large crowd at the A. M. E. (Bethel) church on the subject of "The Necessary Contact of Those Who Can See With Those Who Cannot See." The address was well received.

This afternoon he spoke to the women at the A. M. E. church. Tomorrow afternoon he will speak at Providence Baptist church, and later to both the men and women at this church.

All are welcome to attend and hear for themselves.

It's warm, isn't it? But there's one cool spot in town. By the way, there is to be a lawn party there Thursday evening, where you can get delicious cream and cake and spend an hour in social intercourse with your friends. They'll all be there. It will be held on the Eckel lawn.

MUNICIPAL AFFAIRS.

Business Receiving the Attention of the Aldermen Last Night—A New Policeman Elected—Heating of the City Hall.

With the exception of Alderman Love, who is out of town, all the members were present at the special meeting of the Board of Aldermen last night.

Representing himself and other citizens on East Washington street, Mr. C. H. Dorsett appeared before the board and asked that the sewer on South Forbis street be extended to East Washington. The matter was referred to the city engineer to investigate and make a report. If it is found in conformity with the profile of the city sewerage system the extension will be made according to the plan heretofore adopted with the county commissioners and the Hunter Manufacturing and Commission Company.

The board went into the election of a police officer to succeed the late John W. Cates. There were a number of applicants for the position. Mr. J. Harper Merritt was elected on the first ballot.

Albright & Battle were granted plumbers' license. A satisfactory bond was filed and accepted.

After considerable discussion it was decided to heat the auditorium in the new city hall by steam. The heating of the offices of the city officials was left with the committee.

Alderman Boyd was added to the city hall committee during the absence from the city of Alderman Love.

Alderman Joyner moved that the mayor and city attorney be appointed a committee to revise the city charter preparatory to submitting it to the next session of the Legislature for changes. The motion prevailed, Alderman Joyner being added to the committee.

The waterworks committee made a verbal report. It will probably be some time before a final report is made and the matter settled.

The board will meet in regular session Friday evening.

OUR APPLE EXHIBIT AT PARIS.

Why Greensboro Feels a Special Pride in the Showing Made.

By winning the second premium on apples at the Paris Exposition North Carolina has gained some reputation that ought to be of practical value to her not only abroad, but by suggestion to her people at home. When we learn to take care of our orchards and to prepare our fruit for the market properly we will have a large, new money crop.

It is a matter of pride to Greensboro that to three men in this community is the State largely indebted for its creditable show in the great world exhibit at Paris. It was Mr. Thomas L. Brown, superintendent of the State Normal grounds, and secretary of the State Horticultural Society, who first corresponded with the authorities at Washington about their getting the exhibit from this State. Mr. J. Van Lindley, president of the State Horticultural Society, took up the matter, and he and Mr. Brown secured an appropriation of \$500 from the Department of Pomology at Washington, provided that the State would appropriate a similar amount and we would work up the exhibit. The State Board of Agriculture made the required appropriation of \$500 and through Mr. T. K. Bruner made the collection of apples. In addition to the State's collection, Mr. Moses H. Cone sent a fine exhibit from his immense orchards at Blowing Rock.

So Greensboro feels doubly proud that the apples of North Carolina made so fine a show among the apples of the earth.

SICK FROM EATING ICE CREAM.

TWENTY CITY PEOPLE POISONED.

Mrs. Ellis Served Ice Cream Sunday and the Serious Effect are Only Now at Their Highest—All the Family and Every Boarder Who Ate the Cream Were Poisoned—Some are Very Seriously Sick, Some Less So, None Fatally—The Cream Was Especially Fine and Prepared With the Utmost Care.

Frequently people are poisoned or made sick by eating ice cream, but it is not often that they are affected as were a number of persons in Greensboro who ate cream Sunday. While a few of them were sick Sunday night, the majority did not feel the ill effects of the cream until yesterday and last night. While some were slightly sick Sunday night the effects were not then traceable to the true cause, and not till late yesterday and last night had so many been effected as to settle the fact that the cream was the cause.

The cream in question was served at Mrs. S. R. Ellis' boarding house, much care having been observed in making it. The members of the family and several boarders were sick Sunday night, and last night nearly all the other boarders succumbed. It is supposed that the sickness was caused by the boiled custard used in making the cream. Mrs. Ellis is one of the most careful housekeepers in Greensboro, and always prepares her cream with the utmost pains. She never before had any trouble, and no one so hates the occurrence as she. The cream was made Sunday morning and served at dinner. Every one who ate it has been sick, some of them not feeling it until last night, while those who were at dinner, but took no cream, have not been effected. Several of the boarders were out of town and thus escaped.

Those sick are: Mr. and Mrs. Ellis and children, Mrs. Orrell and Mrs. Hollingsworth, Dr. J. S. Betts, Prof. T. G. Pearson and Messrs. A. B. Kimball, R. P. Walters, John W. King, E. B. King, S. A. Kirkman, E. R. Goolsby, G. O. Wilson, Charlie Archer, J. Ed. Albright, F. A. Pierce, Arthur Harry and Erle Scarborough. The little child of Mr. and Mrs. Lee H. Battle, who have their meals served from Mrs. Ellis', was also made sick.

The victims were all taken something in the way that grip attacks, with severe pains all through the body and fearfully high fever. Several have been extremely delirious. Dr. Betts, Mrs. Orrell Mrs. Hollingsworth, Mr. Kimball and Prof. Pearson have so far been the greatest sufferers and are yet little better. The effects are stubborn and hold the victims in an unrelenting grasp for hours. While there has been no apprehension of any fatality, the suffering has been and is yet great. Many took the disease long after others, and some have perhaps reached the worst, and some are getting better. The suffering has really been distressing. Over twenty persons were made sick.

DR. WHARTON'S EXPLANATION.

His Arrest on Charge of False Pretenses Declared to Be Unwarranted.

New York, Aug. 5.—The Rev. Dr. Henry M. Wharton, who was arrested at Ocean City N. J., on a warrant charging him with receiving property under false pretenses from Miss Clara Somers, of Ocean Grove entered his bonds for \$1,000 for his appearance at the next term of Monmouth county court.

Dr. Wharton preached morning and evening at the auditorium today. Tonight he referred to the charges, and a number of other clergymen and laymen followed him claiming that it was a malicious prosecution. Dr. Wharton this afternoon made a statement, in which he says:

"Two years ago, while at Ocean Grove, N. J., I made public mention of the fact that I had in my care two orphanages, one for white and one for colored children, and a large school for girls located in Virginia and North Carolina. A short time after that I received a letter from Miss Clara Somers, offering to give me certain property at Ashbury Park for the purpose of opening another orphanage, her own request being that it should bear the name of Willard Home. Miss Somers conveyed the property to me in a fee without any condition. It was understood that it should be used as an orphanage, and it has been used for that purpose alone. I was advised that as the property had been put entirely in my possession, I had the perfect right to raise money upon it to carry on my work."

THE TELEGRAM is preparing to distribute this amount free to the children of the city under fifteen years of age. This will be a free gift to the children, designed to interest and amuse them. Every child under the age specified will be entitled to a free draw. Watch out, boys and girls, for the announcement of the drawing. The plan will be announced later.

RAID ON ANARCHISTS.

It Took Forty-Five Policemen to Disperse the Crowd and Arrest the Widow of the Anarchist Parsons, Hanged in 1887.

Chicago Dispatch, Aug. 5.

An anarchist riot occurred this afternoon at the corner of Twelfth and Halstead streets, in which twenty-five people were bruised in a struggle with forty-five police, summoned to quell the disturbance. Five persons were arrested, among them being Mrs. Lucy Parsons, widow of Albert R. Parsons, who was executed November 11, 1887, in Chicago for aiding and abetting the bomb throwing in the Haymarket riot. She was charged with disorderly conduct, obstructing the street, and resisting an officer. Her bail was fixed at \$1,000.

The others arrested were Paul Vandee, charged with distributing incendiary literature, bail fixed at \$1,000; Clement Pfuetzner, charged with assault, disorderly conduct, and obstructing the street; Herman Goodman, charged with distributing incendiary literature, bail fixed at \$2,000, and Abraham E. Delstadt, charged with disorderly conduct, obstructing the street, and resisting an officer; released on \$1,000 bonds.

A mass meeting had been called at West Side Turrer Hall, at which speeches were to be made by Mrs. Parsons and others on the topic, "The Execution of the King of Italy." The call concluded: "Workmen, come in crowds and show that the feeling of brotherhood is strong among you."

CROWD SET UPON THE OFFICER.

Mrs. Parsons was on her way to the hall when, finding it had been closed by the police, she stepped into a doorway across the street. Soon a crowd formed, and a police officer, pushing through the crowd, caught a glimpse of Mrs. Parsons. Thinking she was making an anarchistic speech, he endeavored to disperse the crowd. His efforts were in vain, and the officer sent in a call for re-enforcements.

Additional officers arrived, and immediately a general fight was precipitated. Fists and clubs were used, and the officers finding themselves being worsted, sent in a riot call. The number of police was increased to forty-five and they rushed into the throng. Mrs. Parsons was seized. It is claimed that she resisted arrest, and her associates fought for her. Bricks were thrown, clubs were wielded, and a fierce struggle ensued before the crowd was finally dispersed.

Clement Pfuetzner, one of those arrested, was badly cut in the hand. A number of children in the crowd were knocked down in the melee and trampled upon, but none was injured seriously. In all twenty-five persons were badly beaten and bruised.

INVITING WORKMEN TO VIOLENCE

After the affray numerous small cards were found in the street and in the vicinity containing two verses of poetry urging the workmen to be free, to throw off the yoke of bondage and fight for liberty, and to lay down their lives, if necessary, to overthrow the government and attain freedom.

The police assert that these cards were printed in San Francisco, and were received here by the anarchists several days ago and have been secretly distributed. A large quantity of literature advocating anarchy and a book containing the names and addresses of several hundred anarchist sympathizers were received by the police.

MOONLIGHT PICNIC.

Young People Spend Happy Hours at Guilford Battle Ground.

The Guilford Battle Ground has become one of the most popular pleasure resorts in this section. Certain it is, that a more beautiful place cannot be found, and almost every night, people enjoy themselves there.

One of the happiest parties that has visited the Battle Ground during the season, was the merry group of young people who enjoyed a picnic there last night. They spent several hours wandering over the grounds and rowing on the lake. The following composed the party:

Misses Geiter and Reid, of Virginia, Misses Nettie and Bessie Merrimon, Miss Hall, Miss Minnie Lyon, Miss Lola Reid, Misses Lola and Daisy Caraway, Miss Helen Wheeler, Miss Annie Land, and Miss Mamie Stroud, of Sanford, and Messrs. Lacy Sellers, Frank Leak, Charlie Murray, Bennie Gilmer, Paul Schenck, Jesse Rankin, Moody Stroud and Will Huges.

Stumptoe's Future Travels.

Statesville Landmark.

Stump Ashby is reported to have said at Hillsboro last week that while he might go to hell some time he was positive that he would never come to North Carolina any more.

A Supper in Honor of Messrs. McKinney and Greene.

At her hospitable home on Lindsay street last night Mrs. T. A. Lyon gave a supper in honor of County Treasurer McKinney and Mr. Walter Greene. It was a very nice affair and was served in an elegant manner. In special honor of the two Confederate veterans, the decorations were in the colors of the "Lost Cause," producing a lovely effect. The figures of Mr. McKinney's majority in the late election were wrought in the decorations.

Music, recitations, etc., added to the enjoyment of the evening. Miss Hattie Lyon recited in a charming manner several patriotic poems.

Our "Wanamaker" and "Dewey" Vic's Kid Men's shoes, made by the Chas. Heiser Shoe Co., are up-to-date, fit well, look nice and are just what you want for this warm weather.

THACKER & BROCKMAN.

The wolf in the fable put on sheep's clothing because if he traveled on his own reputation he couldn't accomplish his purpose. Counterfeiters of DeWitt's Witch Hazel Salve couldn't sell their worthless salves on their own merits, so they put them in boxes and wrappers like DeWitt's Witch Hazel Salve. It cures piles and all skin diseases. Howard Gardner. Aug.

When we look back on the science of glass fitting and the conditions which but a few years since governed the wearing of glasses, and then view the conditions that exist today we can but wonder. The young man who wore glasses of any sort then pronounced a "dude" or an imbecile. Today the eyes of the biggest, brainiest, most substantial men in business and the professions look upon the world through glass.

SPLIT POLITICS OF THE COUNTY.

An Administrator, Forced to Settle With an Heir, Kicked Up a Great Big Rumpus. Bolted and Fused With Populists and Republicans—All Quiet—Will be an Attempt to Draw the Color Line in the National Election—The Ninth District Went Republican—Crop Report.

Special Correspondence of the Telegram

Raleigh, Aug. 7.—The State board of canvassers will meet August 30. It is composed of Governor Russell, Secretary of State Thompson, Walter H. Neal, J. D. McNeill, Wilson G. Lamb and E. A. Wilson. It will canvass the returns of the election held last week.

Yesterday C. B. Aycock, Francis D. Winston, Walter H. Neal and P. M. Pearsall left for Old Point to remain a few days, resting and enjoying life after the great victory. Chairman Simmons expects to join them there.

Walter Neal says that Cameron Morrison and James A. Lusk, elected to the Senate from the 23d district, got the largest majority ever given a Senator in the State—6,250.

The Ninth Congressional district, it seems, gives from 1,600 to 1,800 majority against the amendment. It was thought that Yancey had gone for the amendment, but today news came that it had cast about 400 majority against the amendment.

The Democrats will do some great campaigning this year to carry the Eighth and Ninth Congressional districts.

Chairman Simmons will positively close Democratic headquarters tonight. He says the national campaign in this State will be a lively one. Of course it will not approach in liveliness or interest the campaign just ended. Nothing has ever approached that and no doubt nothing ever will in the line of politics.

The statement having been made by a Republican in one of the counties west of here that the United States marshal had a pocket full of warrants for Democrats. Inquiry as to its truth was made today at the office of Marshal Dockery. He wasn't there but his chief clerk was and the latter declared there was not a particle of truth in the statement, that there was not a warrant to be served in this district.

Senator Butler is yet here. His idea of making contests of legislative seats is heartily ridiculed. He says the election here at Raleigh was a model one. It seems to have been pretty nearly as quiet everywhere.

It appears from a publication yesterday that an effort will be made to draw the "color line" in national politics for the November election.

The Newbern division of the naval militia went by boat to Bayboro, Pamlico county. The distance by water is 60 miles. It is not known why they did not march over Saturday night. It is said the distance is only 18 miles by land. However, when the division got there it found that the mob which had surrounded the courthouse and besieged the county canvassing board had dispersed and gone home. Acting adjutant general Loge Harris Monday night received the following telegram from T. C. Daniels, who commands the 2nd battalion of naval militia, to which the Wilmington division belongs: "Lieutenant Hill telephones from Bayboro that there is no trouble. All is quiet. The mayor, sheriff and prominent citizens all say there is no need for the military. There was only the excitement of the election and the scare attendant thereon. Lieutenant Hill is returning with the reserve." It seems that the Pamlico disputants will leave the matter to the courts and that they dispersed about 3 o'clock Friday morning.

This Pamlico dispute is a queer affair. The county is a little one, with only 1,700 voters, isolated, and without a railway. Some years ago a man died, leaving property worth some \$30,000, and two little girls. His administrator was the richest man in the county. One of the girls married before she was of age, and she and her husband asked for an accounting. The administrator said that only a few hundred dollars was due; that the dead man owed him a bank account of \$10,000, and that there were other necessary expenses which had absorbed the estate. Suit was brought, and it was the biggest case ever tried in the county. It was freely said that no one would dare attack the character of the rich man who was administrator—but it was attacked, and in the plainest terms he was charged with fraud. He was found to have perpetrated a gross fraud and the verdict was against him for the full amount claimed. He appealed and the Supreme court affirmed the judgment.

This suit engendered the bitterest kind of feeling and the rich man in question led a movement against the regular Democratic nominees. This fight was hot in the primaries. The line of cleavage was along this law suit. The straight Democrats carried the primaries overwhelmingly. The trouble at once began. A part of the minority, Democrats, about 70 in number, joined forces with the Republicans and Populists, and the outfit put up a combination ticket, on which all three had candidates. Each had a separate committee—Republicans, Populists and bolters. Some very influential men are among the bolters.

The weekly crop bulletin issued for this State today by the government says that on the whole the reports of crop correspondents for the week ending last night indicate that favorable conditions prevailed and that crops made good progress since the rains of the preceding week. Clear, bright weather was the rule, with occasional showers in the eastern portion of the State; the temperature has been moderately high, averaging hardly two degrees daily above normal, while toward the close of the week the nights became agreeably cool. The amount of rainfall was very small, and crops are again beginning to need rain, though so far doing well. However, in quite a number of counties the drought has really not been broken and is still severe, chiefly in the central-west: Randolph, Cabarrus, Iredell, Yadkin and Henderson counties; droughty conditions also prevailed more or less in Tyrrel, Beaufort, Rockingham, and Cumberland counties. The cultivation of crops has practically ceased everywhere, and farmers are beginning to plow for fall crops, to sow turnips and late Irish potatoes, and to pull fodder. Cotton made favorable progress during the week; it is quite generally reported to be fruiting well, although the weed is small; some early bolls are opening in Scotland county; complaints of rust and shedding are comparatively few. Young corn looks fine and is earing well; many farmers are cutting old corn, which was ruined by drought, for feed in preference to pulling the fodder. The rapid growth of tobacco caused by the sudden abundance of moisture last week has made the plants rather rough and coarse in some counties; the condition of the crop continues to be very diversified; too much late crop was planted, curing is progressing favorably. Minor crops continue in good condition, especially field peas, peanuts and sweet potatoes. A fine crop of grapes will be gathered; canning and drying fruit is becoming a favorite way of utilizing a portion of the abundant fruit crop in North Carolina. Melons are fine everywhere.

FATHER KILLED AT FIRST SHOT.
Daniel Howard, a prominent Kentuckian, Killed in a Fight With His Son.
Pineville, Ky., Aug. 5.—Daniel Howard, a prominent citizen of this county, was killed by his son, George Howard. Daniel Howard had been to town and secured a jug of whiskey. He became intoxicated, and had words with George, whom it is said he threatened to shoot.
The son secured a Winchester, and the father, it is said, drew his gun on George. George fired first, killing his father instantly. He was one of the wealthiest citizens of Bell county and sixty-three years of age. He was a cousin of Berry Howard, who is under indictment as an accessory to the murder of Governor Goebel.

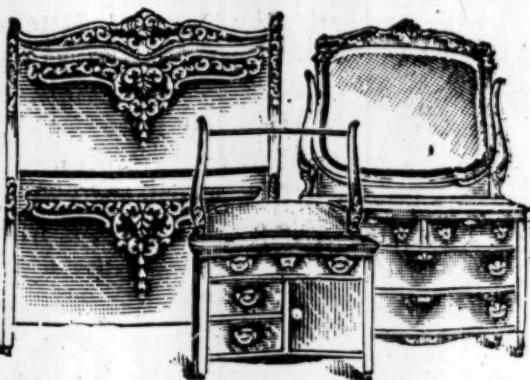

"I," said the gentlemen who had fairly prospered, "am humbly proud of the fact that I took 'Get thee behind me, Satan,' as my motto when I began in business life."

"There is nothing," said the second gentleman, who had measured wits with the first gentleman, "like having a good backing."—Indianapolis Press.

TUESDAY AUGUST 7, 1900.

ANTI-TYPHOIDAL SERUM.

Saturday we copied from the Richmond Times some comment on the report of the Virginia State Board of Health on the subject of typhoid fever. It went on to state how, by carefully looking after the drinking water and the milk, typhoid may be almost wholly avoided. It is a well recognized fact, we believe, that typhoid germs are taken into the stomach only in water or other substances, and never through the atmosphere, as many people think, and hence if one drinks absolutely pure water and milk, he is safe. The report, however, goes on to show that water that is clear and cool is not necessarily pure. The subject of typhoid fever should be a vital one for the people of this country, as it is much more fatal than yellow fever, smallpox and other diseases which frighten whole communities almost into spasms, and slays its thousands where these slay their tens.

However, this is merely by introduction to what is now being published regarding the experiments of Dr. Wright, professor of pathology in the British Medical School, with anti-typhoidal serum. It is very interesting. The experiments were by inoculation with the substance, and were made upon British soldiers during the siege of Ladysmith. In the garrison General White had something over 12,000 men. All these had to drink very impure water, resulting in a great deal of typhoid fever. Only 1,705 of the 12,234 men allowed Dr. Wright to inoculate them with his anti-typhoidal serum, the remaining 10,529 preferring to take their chances without it. The results were highly satisfactory and demonstrated the great efficiency of the serum.

Among the 10,529 non-inoculated soldiers there occurred 1,489 cases of typhoid fever; among the 1,705 inoculated soldiers, 35 cases. Stated otherwise, there was one case of fever to every 7.07 non-inoculated soldiers, and one case to every 48.7 inoculated soldiers. In other words, for every one inoculated who took enteric fever, there were almost seven non-inoculated soldiers who took it; and this disparity in number is sufficiently striking to make people stop and think. The number of deaths among the non-inoculated was 320, and among the inoculated 8. Thus, therefore, there was one death among every 32 non-inoculated men, whereas there was only one death among every 213 inoculated men.

In all the great strides in discovery and invention of the past quarter or half century, none have surpassed those of medical science, and the great thing about it is that advancement is still being made rapidly. When the scientists have perfected a treatment for typhoid fever and consumption, the world will be universally the gainer.

The weekly crop report published elsewhere today says that the canning and drying of fruit are becoming a favorite way of utilizing the abundant fruit crop of the State. This is well. There are millions hanging ungathered from the fruit trees of North Carolina every year.

Our Raleigh correspondent says that there will be an attempt to draw the color line in the national election in North Carolina. This appears to us to be mighty small business. We do not think that Mr. Bryan would like to have this held up to North Carolinians as the chief reason why they should vote for him. White supremacy was a real and serious issue, and the only one in the State election. Don't make it a farce in the approaching contest.

The Mitchell Mirror says that two persons have been shot to death from ambush in one community in Mitchell county in nine months. This is the great Republican county of the State. What are the relations of the two facts?

It seems that General Apathy got in his work down in Alabama yesterday.

ROBBERS IN PULLMANS.

They Wake Up Passengers One by One and Rob Them While the Conductor Holds a Sack for the Valuables—One Passenger Killed Because he Resisted.

Salina, Kan., Dispatch 5th.

The Union Pacific east-bound passenger train No. 4, which left Denver last night, was held up by two men several miles west of Hugo, Col., ninety miles this side of Denver. The passengers in the Pullman sleepers were robbed of their money and valuables. An old man named Fay, a resident of California, who had been visiting in Denver, and was on his way to St. Louis, refused to surrender his valuables, and fired a shot at one of the robbers, but missed. Thereupon the robber fired, one shot entering Fay's mouth and coming out at the back of his head, killing him almost instantly. The robbers stopped the train, jumped off, and escaped.

The robbers got on one of the sleepers near Limon, and after the train had started the men made a noise at the door. The conductor, thinking they were tramps, opened the door to put them off. The robbers, who were masked, pointed a pistol at his head and ordered him to lead the way through the coaches.

FORCED CONDUCTOR TO LEND A HAND.

All the passengers were asleep, and the conductor was ordered to wake them one at a time. The frightened passengers were told to keep quiet or they would be killed, and at the same time were asked to hand over their money and valuables. The robbers obtained about \$100 in cash and a number of gold watches and other pieces of jewelry.

The robbery took place a few minutes before 1 o'clock this morning. The body of Fay, who was killed, was taken off at Hugo and shipped to Denver. He was sixty-eight years of age, and a prominent Odd Fellow.

The conductor, who was compelled to hold a bag while the robbers relieved the passengers, lost his watch, and asked that it be returned to him in order that he might run his train on time. The robbers gave it back.

After ransacking the two coaches, the men made the conductor pull the bell cord, but the train was going so rapidly that the robbers were taken to Hugo before it slowed up enough to enable them to jump. They compelled the conductor to get off ahead of them so that if any of the passengers had been in waiting they would have shot him first. After the robbers had dismounted, they ordered the conductor to return to his train.

Miss Shaw, of Denver, a passenger on the train, arrived in Salina this morning. She stated that when the men entered the cars every one was asleep, and very few knew anything of what was going on until they were awakened by the robbers. When the men came to her berth a pistol was pointed at her face and she was told to hand over her valuables. With great presence of mind she opened her pocketbook, letting a number of bills fall out, and then handed the purse, containing some silver, to the robbers. She managed also to save her watch, which was pinned to her dress, by placing her arm over it.

ANOTHER HOMICIDE IN MITCHELL.

Mitchell Boyd Shot from Ambush and Killed.

Mitchell Mirror 2d.

Saturday evening, while reaping oats in his field near Magnette City, Mitchell Byrd was shot through and through from ambush, the ball taking effect in the left side and coming out at the right side. The shot produced paralysis of the lower limbs. After being shot Mr. Byrd was taken to his home near by and lived until Sunday afternoon. He was conscience until

he died, being able to talk all of the time.

It will perhaps never be known who Mitchell Byrd's assassin was, although it is believed to be a son of Thomas Butler, whom Mr. Byrd killed about three years ago, but this may be doubtful, as he had many enemies in that section.

Like all of the Byrds, Mitchell Byrd had a kind heart, but he was not in any way a good man, morally speaking, but after he shot was he made a profession of religion.

The family of the deceased have the sympathy of all in their sore bereavement.

The killing of Mr. Byrd is the second person shot from ambush in that community within nine months' time, and neither of the cowardly assassins will ever be brought to justice.

is where we stand in the lumber business. At the kicking post, as it were, in regard to prices. First comes the owner of the timber. He just woke up to the value of it and wants double last year's prices. Then the sawmill man. He has not been making a fortune and thinks now he should share a little in the general prosperity. They say to us: "We must have so much for our trees and work." After a while it is "up to you." Don't kick. You don't suppose we have nerve enough to put up prices unless they had first been put up on us. No, indeed. But prices are NOT high. They have been to low and are just now getting reasonable. Your children will be glad to build at double the price it now costs you. It is a trite, but true saying, if you want to build, "Now is the time."

At an early hour Sunday morning the home of Mr. W. E. Turner, in the northern part of Durham, was burned to the ground and the family, consisting of father and three sons, had a narrow escape from being burned to death. A bird dog gave the alarm and woke Mr. Turner after a portion of the roof had fallen in.

If any of your children are girls, you ought to see our table full of bargains in tan Oxfords and Sandals. We don't want to carry over a single pair of these and have cut the whole lot down to 75 cents a pair—any size or style you want. These are not old style, needle toe Oxfords, but nearly all new, up-to-date goods. Look at them while you can get the size you want. THACKER & BROCKMAN.

Shop Newly Equipped

I have just completed equipping my shop with power and machinery for doing all classes of repair and new work. I am now amply prepared for doing heavy wood work, and also heavy forging. When in need of any kind of repairs very often the time saved by having it done promptly will pay for the same; and besides machinery does work better and cheaper than muscle.

I am now prepared to build on short notice any kind of a wagon you may want—a heavy dray, light spring wagon, or a farm wagon.

We buy as low as we can, that's business sense.
We sell as low as we can, that's progressive sense.
You buy as low as you can, that's common sense.
You buy of us, that's dollars and cents for both of us—do you hear? So watch out this week; we have made SHELF-EMPTYING PRICES in all departments. Cleaning up the ranch for Fall business. We'd rather have their room than their company—all summer goods must go

MANY NUMBERS UNCUESSED

SEND UP YOUR BEST GUESSES.

A Number Are Now Coming From Out of Town, But Everybody in Town Has Not Guessed—Our Folks Are Determined Not to "Get Together" on the Matter.

Some guesses coming in from out of the State have appended to the paper "Hurrah for North Carolina!" Doubtless many a "Tar Heel's" heart is made glad, as in some distant place he hears of the great work of last Thursday—but send along your guesses.

BRIAR PIPES.

Signs by Which a Smoker Can Tell a Good One.

It is strange, and yet it is a fact, that the English workman is of no use in the manufacture of pipes. The most skillful artisans are either the Austrians or the French. The pipemakers are a very select, small body, and observe every precaution to prevent their trade being learned by outsiders. The workmen are clever and they can earn high wages.

Speaking of the cost of a pipe a successful manufacturer remarks: "When the blocks arrive over here they are at once sorted. Out of one gross of blocks I rarely ever get more than three or four pieces of wood for the ordinary everyday pipe. The remaining seven dozen pieces of wood are thrown into the furnace, and I might mention help considerably to generate the necessary steam power for the machinery. Thus fully 60 per cent. of the material I purchase is of no use whatever, and it is this extraordinary amount of waste that causes the briar pipe to be so expensive.

The prevailing defect, I may mention by the way, is generally in the form of a crack in the wood. I used to sell these defective blocks of briar at a penny apiece, and have sent away as many as 40,000 condemned briars at a time, but now I burn them all. The briars were sent abroad and the cracks and flaws stopped with putty or some other composition and then steeped in a strong solution of permanganate of potash, which deeply colored the wood and made the defect invisible except on close inspection. All those briars you see of a very deep color have passed through the permanganate of potash bath, and you may rest assured that there is a defect somewhere—they would not be that color if it were not so, because natural briar is of a medium light hue.

"As to the average life of a briar pipe, you may take it for granted that a pipe will last you as many years as it costs you shillings. That is to say, if you pay six shillings for a pipe if you are a moderate smoker, it will last you six years. The style of briar pipe that is mostly in demand is that with a bowl cut the straight way of the grain. This is not the most reliable kind of pipe, as the sudden expansion by the heat and contraction of the wood when you stop smoking cause it to split in a short time. The best pattern of briar is that with a bowl the grain of which is very mottled in appearance, or, as the trade call it, the 'bird's-eye grain.' This will never split."

Courtin' Oom Paul's Nieces.

The Boer girl of the country districts of the South African Republic "is able to go to town only once or twice a year, and then it is to attend the Nachtmals, or communion, which is the chief festival of these deeply religious people," writes Howard C. Hillegas, of "The Boer Girl of South Africa," in the January Ladies' Home Journal. "The journey to the town is made in ox-teams, and may require a week's or a month's time, but it is always an epoch in a Boer girl's life, especially if she is about sixteen, when she is supposed to have attained the matrimonial age. Then some tall, robust Boer youth, whom she has met at former Nachtmals, may summon enough courage to ask her whether he may call at her home and have an 'up-sitting,' which is a sort of ultimatum before an ultimatum. If she consent the young Boer will shortly afterward ride on horseback many miles across the plain to the girl's home, and will prove that he is worthy of her love by 'sitting-up' and talking with her from sundown until break of day. For two young Boers to arrive at this period of courtship is equivalent to announcing the engagement, and then the prospective bride begins preparation for the wedding."

WORKING NIGHT AND DAY.

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. Every pill is a sugar-coated globe of health, that changed weakness into strength, listlessness into energy, brain-fag into mental power. They're wonderful in building up the health. Only 25 cents per box. Sold by C. F. Holton

Satisfying, Cooling, Refreshing.

Thirst is a great trial these warm summer days. What shall we drink? Which do you prefer, a glass of insipid, tasteless water or a cooling, refreshing, effervescent glass of Abbey's Salt? A teaspoonful of

Abbey's Effervescent Salt

In a tumbler of water not only satisfies the thirst but keeps the system in good order. It may be taken at any time without any unpleasant after effects. Abbey's Salt is a preventive of and cure for Headache, Bilioessness, Dyspepsia, Constipation and all ailments caused by a disordered condition of the stomach and bowels.

Sold by most druggists, or sent by mail. 25c., 50c. and \$1 per bottle. The Abbey Effervescent Salt Co., 9-15 Murray St., N. Y. Booklet free on request.

Rheumatism

Rheumatic pains are the cries of protest and distress from tortured muscles, aching joints and excited nerves. The blood has been poisoned by the accumulation of waste matter in the system, and can no longer supply the pure and health sustaining food they require. The whole system feels the effect of this acid poison; and not until the blood has been purified and brought back to a healthy condition will the aches and pains cease.

Mrs. James Kell, of 707 Ninth Street, N. E. Washington, D. C., writes as follows: "A few months ago I had an attack of Sciatic Rheumatism in its worst form. The pain was so intense that I became completely prostrated. The attack was an unusually severe one, and my condition was regarded as being very dangerous. I was attended by one of the most able doctors in Washington, who is also a member of the faculty of a leading medical college here. He told me to continue his prescriptions and I would get well. After having it fitted twelve times without receiving the slightest benefit, I declined to continue his treatment any longer. Having heard of S. S. S. (Swift's Specific) recommended for Rheumatism, I decided, almost in despair however, to give the medicine a trial, and after I had taken a few bottles I was able to hobble around on crutches, and very soon thereafter had no use for them at all. S. S. S. having cured me sound and well. All the distressing pains have left me, my appetite has returned and I am happy to be again restored to perfect health."

SSS is the great vegetable purifier and tonic, is the ideal remedy in all rheumatic troubles. There are no opiates or minerals in it to disturb the digestion and lead to ruinous habits.

We have prepared a special book on Rheumatism which every sufferer from this painful disease should read. It is the most complete and interesting book of the kind in existence. It will be sent free to any one desiring it. Write our physicians fully and freely about your case. We make no charge for medical advice.

BRAVE MEN FALL.

Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, nervousness, headache and tired, listless, run-down feeling. But there's no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: "Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me new strength and appetite than any thing I could take. I can now eat anything and have a new lease on life." Only 50 cents at C. E. Holton's drug store. Every bottle guaranteed.

Your Salt works like a charm. It seems to be just what has always been wanting for the fever patient, cooling and refreshing in any particular. I shall never be without it in my office.

Gentlemen:—I have given your "Effervescent Salt" a good trial, and consider it a most excellent aperient and cooling drink.

Yours very truly,
CHARLES E. MANNING,
M. D.

44 FELIX STREET,
BROOKLYN, N. Y.,
November 19, 1899.
Dear Sirs:—I find that Abbey's Salt affords a very refreshing drink, and, taken as directed, an effective laxative. The fineness of the granules is another point in its favor, allowing it to be taken while effervescent without particles of salt undissolved entering the mouth. I found it also beneficial in a certain case of headache.

Respectfully,
Dr. F. L. WING.

The Happy Crowd of Chinese Refugees That Landed at San Francisco Yesterday, Germany and Russia Will Likely Act Together—Cuban School Teachers to Visit Washington—The Alabama Election Yesterday—Bresci in a Straight Jacket.

Blue Jackets, marines, ex-soldiers of the Ninth Infantry and refugees crowded the decks of the transport Logan from Taku via Japan, which reached her docks at San Francisco yesterday. There were men, women and children on the vessel direct from Tien-Tsin, who had escaped from the mobs of Boxers and the imperial Chinese troops. Nearly all of the passengers in the cabin had felt the depressing effects of a siege and were more than glad to get back to civilization. Among them were Dr. Diefenderfer and Mr. McIntosh, who were in the mill at Tien-Tsin where the Chinese were held at bay before the first relief came through. Master Earl Ragsdale and Miss Effie Ragsdale, children of the United States consul at Tien-Tsin, were also on board. A large number of the refugees left the transport at Yokohama to return to various parts of Europe and America by regular steamers.

Andrew D. White, United States ambassador to Germany, was a passenger on board the Deutschland, which reached her dock in New York yesterday from Hamburg. Asked what he thought of the cable report that Russia and Germany would declare for war conjointly against China, the Ambassador said:

"I think it is very likely. Both countries have the same cause for war and both would have a common cause for acting together."

He did not think partition will be made of China and said on this subject: "I don't think that the powers will divide China. The condition that meets them now is the pacification of the country. There is no talk of the partition in Germany and I do not think there will be any on the part of the other powers."

Davis Flannery, who was chief telegraph operator in the service of the Confederate army, between New Orleans and Memphis, during the civil war, died in Memphis yesterday.

The delegation of Cuban school teachers now receiving a course of instruction in English branches at Harvard University, Cambridge, Mass., will visit Washington on the 18th inst., for the purpose of paying their personal respects to the President of the United States and to inspect public institutions and attractions of the national capital.

Final arrangements have been completed for the meeting at Indianapolis to notify W. J. Bryan and Adlai E. Stevenson of their nomination as President of the Democratic party. Indianapolis has been at work for two weeks getting ready for the event, and last night, with the adjournment of the general committee of arrangements, the last detail has been arranged. Military Park, where the notification will take place, has been elaborately decorated. The speakers' stand will accommodate all distinguished visitors, including members of the com-

mittees, and in front arrangements for 60 press tables. Space has been engaged by many of the principal newspapers of the country. The exercises at the park will begin at 2:30 and will last two hours. Congressman Richardson, of Tennessee, and Governor Thomas, of Colorado, will make the address of notification to which both Bryan and Stevenson will reply. A brief, informal reception will follow. Mr. Bryan and the visitors participating in the exercises will be driven to the Grand Hotel for supper.

All the union stevedores in Baltimore, numbering about 2,500, went on a strike yesterday because the steamship agents refused to agree to employ no more non-union men.

Eleven people died in Chicago yesterday from the heat. The mercury registered 93 degrees.

Bresci, the assassin of King Humbert, has abandoned the attitude of calm which he had assumed since the murder was committed and has been giving away to fits of passion. This has necessitated placing him in a straight jacket for ten hours.

Governor Roosevelt, Republican nominee for the vice presidency, was at political headquarters in New York yesterday. Outlining his plans for the next three months, Governor Roosevelt said his first public address would be a non-political one in Chicago, on Labor Day, September 3. From Chicago, the Governor will go West until October 3, when he returns to New York. From that time he will speak only in New York State. He said that he was assigned to cover every county in New York State.

A general State election for State and county officers, and for members of the General Assembly, was held in Alabama yesterday, and a large majority was returned for the Democratic party, headed by Wm. J. Samford, of Lee county, who will be inaugurated as Governor on December 1. The Republicans, Populist and Prohibitionists had tickets in the field, but returns so far indicate a victory for the Democrats by an overwhelming majority. The Populists and Republicans will together possibly have 12 of the 133 members of the Legislature, a loss of about 50 per cent. The Democrats have elected county officers in several counties which have heretofore been strongly Populist.

The Organist an Autocrat.

"If there ever is any trouble in the congregation about the music, and if the minister ever worries himself, it is admitted at once that the congregation and the minister are alone to blame," writes Ian MacLaren in the January Ladies' Home Journal. "But there are other difficulties, and they may be mentioned in a spirit of becoming humility. For one thing, the organist is an artist, and every artist has a nature of special refinement which cannot bear the rough-and-tumble ordinary methods of life. With a man of common clay you deal in a practical, straightforward and even brutal fashion, arguing with him, complaining to him, and putting him right when he is wrong. But no man must handle precious porcelain in such fashion, or the artist will be instantly wounded and will resign and carry his pathetic story to every quarter, for, as a rule, the organist thinks that he is lifted above criticism and public opinion. It is impossible to teach him anything; it is an insult to suppose that anything could be better than the music he provides."

this morning at her home on East
Lee street. The funeral will take
place tomorrow morning.

The foundation is being laid for a
new residence to be erected by Mrs.
Cooper on the corner of West Wash-
ington and South Ashe streets.

The county commissioners went to
McLeansville today to locate a public
road, about which there seems to exist
a considerable difference of opinion.

The Spring Garden Street Epwoth
League will give a lawn party on the
chapel lawn, on the corner of Spring
Garden and Lithia streets, Friday eve-
ning. Ice cream, sherbert and cake
will be served by the young ladies,
who hope to receive a liberal patron-
age.

The singing class of the Oxford Or-
phan Asylum, which is to give a con-
cert in the Academy of Music tonight,
arrived on the noon train from the
east. The class is composed of fifteen
bright children. They are in charge
of Miss Eva Miller.

Early this morning a mule being
used in plowing up the foundation for
the new building on the corner of
South Elm and West Sycamore streets
became stuck in the mud so badly that
it was necessary to prize the animal
out. A bystander remarked that the
mule was evidently stuck on his work.

QUESTIONS ANSWERED.

Yes, August Flower still has the
largest sale of any medicine in the
civilized world. Your mothers and
grandmothers never thought of using
anything else for indigestion or bil-
iousness. Doctors were scarce, and
they seldom heard of appendicitis,
nervous prostration or heart failure,
etc. They used August Flower to
clean out the system and stop fer-
mentation of undigested food, regulate
the action of the liver, stimulate the
nervous and organic action of the system,
and that is all they took when feeling
dull and bad with headaches and oth-
er aches. You only need a few doses of
Green's August Flower, in liquid
form, to make you satisfied there is
nothing serious the matter with you.
For sale by Grissom & Fordham.

Millions will be spent in politics

**BIG VALUES
HITCHED TO
SMALL PRICES**

Your old straw hat is about gone. Cast it aside, and call on
us—we can supply you. We have a few left with the prices almost
gone. If you wish to change we have just received an up-to-date line
of nice Pearl Gray Golf Hats, which will take its place. A peep in our
window will convince you that we have all the new shapes and styles
that can be had.

We have lots of other values in soft shirts it would do your
heart good to see. Don't miss them, a harvest of bargains—our store
is the field, the public the reapers.
